

Alice Gangl  
St. Anthony, North Dakota  
Inducted into the Trapper Hall of Fame - 2014

I have been trapping off and on with my husband, Robert ever since we were married, and before that. That was 54 years ago.

I really got started when our son went off to college. I thought "I can do this"!

I've trapped coyotes, which was my favorite, with Coilsprings No.3, and Longsprings No.3 or No. 4.

To my fantasy, in 2006, I was congratulated from the North American Fur Auction of Canada on the top lot of a semi-heavy coyote that I got \$68.00 for. What a prize for me!

Along with the coyote, I trapped fox, coon, skunk, porcupine, beaver and muskrat. The gland lure was a favorite one for my trap settings. I set a few snares for coyote and fox during tough trapping weather.

The winter of 2011, I trapped 14 skunks just around our farm and dispatched them myself.

The spring of 2012, I trapped 11 beaver with body grips for some friends of ours along the Little Heart Creek.

I always looked forward to attending the North Dakota Fur Takers Rendezvous each year I went. It was a fun time with fellowship and "gossip".

I am a Life Member of the North Dakota Fur Takers Association, and I enjoyed with other members, volunteering where I could, especially the Morton County Farm Bureau Ag Show in Mandan.

Thank you for nominating me to the Trappers Hall of Fame of the North Dakota Fur Takers Association.

I never thought I'd get this far!  
God Bless You All!
